

## Weight Assessment & Counseling for Nutrition and Physical Activity for Children/Adolescents – WCC

Intent: The percentage of children who had a visit during the measurement year where BMI percentile, nutrition and physical activity were assessed.

Age: 3-17 years of age

Product Lines: Commercial, Medicaid

Timeframe: January-December 31 of measurement year

**At a minimum for compliance, WCC documentation requires evidence of the following components:**

- Height, weight, and BMI percentile documentation
- Anticipatory guidance related to nutrition
- Anticipatory guidance related to physical activity

### **Practitioner Type:**

PCP, OB/GYN

### **How to submit compliant data:**

Encounters/claims, supplemental data and medical records

### **Tips and Recommendations**

- Make every visit count. Preventive services may be rendered on other visits such as sick, back to school, and sports physical encounter if coded correctly.
- Use correct diagnosis and procedure codes.
- Use standardized templates that allow for check boxes for standard counseling activities.
- A notation of anticipatory guidance alone does not criteria.

**Reporting Requirement: HEDIS<sup>®</sup>, NYS QARR**
